Patent Cooperation Treaty (PCT) Information

For information concerning PCT member countries, see the notice appearing in the *Official Gazette* at 1142 O.G. 66, on Sept. 29, 1992.

For use of the European Patent Office as an International Searching Authority for international applications filed in the United States Receiving Office, see the notice appearing in the *Official Gazette* at 1022 O.G. 52, on Sept. 28, 1982.

For use of the European Patent Office as an International Preliminary Examining Authority for international applications filed in the United States Receiving Office, see the notices appearing in the *Official Gazette* at 1080 O.G. 2, on July 7, 1987 and at 1091 O.G. 2, on June 7, 1988. There is no longer a limit on the number of such international applications accepted for international preliminary examination by the European Patent Office; see the notice appearing at 1116 O.G. 32, on July 17, 1990.

The search fee of the European Patent Office was changed on Oct. 1, 1992, due to changes both in the amount of the international search fee charged by the European Patent Office and in the exchange rate of the U.S. dollar to the German mark, and was announced in the *Official Gazette* at 1142 O.G. 20, on Sept. 8, 1942.

International fees were changed on January 1, 1992, due to a decision of the Assembly of the PCT Union taken during its meeting from 23 September 1991 to 02 October 1991, and were announced in the *Official Gazette* at 1133 O.G. 98, on Dec. 24, 1991.

Certain domestic PCT fees and charges for International Search and Preliminary Examination have been changed effective Oct. 1, 1992 and were announced in the *Official Gazette* at 1141 O.G. 68 on Aug. 25, 1992.

The current schedule of PCT fees (in U.S. dollars) is as follows:

Sept. 4, 1992

DOUGLAS B. COMER,
Acting Assistant Secretary and Acting Commissioner of Patents and Trademarks.

Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d) provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on application filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(h), as amended effective Dec. 16, 1991. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the patent.

Attention is drawn to the patents which were issued on October 3, 1989 for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,870,705 through 4,872,214
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on October 1, 1985 for which maintenance fees due at 7 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,543,667 through 4,545,078
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

For patents based on applications filed on or after December 12, 1980, but before August 27, 1982, patent owners must establish small entity status according to 37 CFR 1.27 if they have not done so and if they wish to pay the small entity.

The current amounts of the maintenance fees due at 3 years and six months and seven years and six months and eleven years and six months are set forth in 37 CFR 1.20(e)-(g), as amended Oct. 1, 1992, which are reproduced below:

37 CFR § 1.20 Post-issuance fees

(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after after Dec. 12, 1980 , in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§1.9f) $465.00
By other than a small entity $930.00

(f) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 in force beyond 8 years; the fee is due by seven years and six months after the original grant:

By a small entity (§1.9f) $935.00
By other than a small entity $1,870.00

(g) For maintaining an original or reissue patent except a design or plant patent, based on an application filed on or after Dec. 12, 1980, in force beyond 12 years; the fee is due by eleven years and six months after the original grant:

By a small entity(§1.9(f)) $1,410.00
By other than a small entity $2,820.00

The amounts of the surcharges for paying the maintenance fee during the grace period or after the expiration of the patent are set forth in 37 CFR 1.20(h), and (i), which are reproduced below:

(h) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months , seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980

By a small entity (§1.9f) $65.00
By other than a small entity $130.00

(i) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay is shown to the satisfaction of the Commissioner to have been unavoidable $620.00

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

RIN 0651-AA57
Changes in Procedures for Revival of Patent Applications and Reinstatement of Patents

Agency: Patent and Trademark Office, Commerce
Action: Notice of Proposed Rulemaking
Summary: The Patent and Trademark Office (Office) is proposing to amend the rules of practice in patent cases to: (1) modify the petition requirements for reviving abandoned applications; (2) extend the provisions for revival under the unintentional standards to applications abandoned under § 1.53(d); (3) modify the requirements for a petition to accept late payment of a maintenance fee filed more than six months after expiration of a patent; (4) modify the requirements for a petition to accept unavoidably delayed payment of a maintenance fee; and (5) provide for reinstatement of a patent where the delay in timely payment of a maintenance fee was unintentional, in the event that proposed statutory changes are enacted.
Dates: Written comments must be received on or before Nov. 13, 1992, to ensure consideration. An oral hearing will not be conducted.
Addresses: Address written comments to the Office of the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231, marked to the attention of Abraham Hershkovitz. Comments may be sent by fax to the attention of Abraham Hershkovitz at (703) 305-8825.
For Further Information Contact: Abraham Hershkovitz by telephone at (703) 305-9282 or by mail marked to his attention and addressed to Office of the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231.
Supplementary Information: Current regulations provide for revival of patent applications which were abandoned for failure to timely prosecute or failure to timely pay an issue fee under the unavoidable standard. In certain situations, patent applications can also be revived under the unintentional standard. A petition to revive under the unavoidable standard is subject to a requirement that the petition be filed promptly after the applicant is notified of, or otherwise becomes aware of, the abandonment. Under the unavoidable standard, any petition filed more than six months after the date of abandonment of the application must be accompanied by a terminal disclaimer disclaiming the period of abandonment. Promptness is not a requirement for petitions filed under the unintentional standard. The proposed change would encourage promptness in filing petitions to revive under the unintentional standard by requiring the filing of a terminal disclaimer when the period of abandonment exceeds six months. The Office calculates the period of abandonment as being the number of months from the date of abandonment until the date of filing of a grantable petition. The proposed change would require that, in a manner similar to the current practice under the unavoidable standard, a grantable petition under the unintentional standard would have to be filed within six months of the date of abandonment, or the requirement for a terminal disclaimer would have to be satisfied. As an example, a petition to revive, under the unavoidable or the unintentional standard, filed within two months from the date of abandonment, if grantable, would not require a terminal disclaimer. However, if the petition to revive is dismissed for a deficiency such as insufficient showing (for petitions under the unavoidable standard), or lack of a statement (for petitions under the unintentional standard), or lack of a sufficient petition fee, or lack of a proposed response, and a renewed petition to revive providing the lacking item is timely filed, but is filed more than six months after the date of abandonment, then a terminal disclaimer would be required.

Section 41 of title 35, United States Code, establishes fees that the Commissioner shall charge for patent-related matters. A bill to amend title 35 with respect to the late payment of maintenance fees has been introduced on June 4, 1992, in the House of Representatives as H.R. 5328 (hereafter, Bill). The Bill proposes to:

(1) amend 35 U.S.C. § 41(c)(1) to permit reinstatement of a patent which expired unintentionally for failure to timely pay the maintenance fee, provided that the payment is made within eighteen months after the six-month grace period specified in 35 U.S.C. § 41(b); and

(2) amend 35 U.S.C. § 41(a)(7) to require a petition fee for an unintentionally delayed payment for maintaining a patent in force.

The unintentional standard is not currently available for applications abandoned under § 1.53(d) (specifically excluded in § 1.137(b)) and patents expired for failure to pay a maintenance fee. The proposed changes (some of which hinge on enactment of the Bill) would expand the applicability of the unintentional standard to applications abandoned under § 1.53(d) and patents expired for failure to pay a maintenance fee.

In order to expedite implementation of the proposed legislative changes, the proposed amendments to the rules of practice

include proposals contingent upon enactment of the Bill. These changes are found in §§ 1.17(m), 1.378(a) and 1.378(c).

If the Bill is not enacted, the proposed changes to §§ 1.17(m), 1.378(a) and 1.378(c) will not include the changes proposed in the Bill regarding acceptance of late payment of maintenance fees, where the delay in payment was unintentional.

Discussion of Specific Sections to be changed or added:

(1) Patent application processing fees. (§ 1.17)

Paragraph 1.17(1) is proposed to be amended to provide for petition fees for reinstating a patent under the unavoidable standard in a manner similar to the fees charged for reviving an abandoned application or accepting delayed payment of an issue fee. In the event that the Bill is enacted, paragraph 1.17(m) is proposed to be amended to require a petition fee for reinstating a patent under the unintentional standard in a manner similar to the fee charged for reviving an abandoned application or for accepting delayed payment of the issue fee. These changes are proposed to ensure consistency with the proposed changes in § 1.378.

(2) Unavoidable or unintentional abandonment of an application

Sections 1.137, 1.155, 1.316 and 1.317 each provide for petitions to the Commissioner for relief from failure to timely comply with a requirement of the Office. Section 1.137 provides for petitions to revive patent applications abandoned for failure to prosecute where the delay in prosecution was unavoidable (§ 1.137(a)) or the delay was unintentional (§ 1.137(b)). Section 1.155 provides for petitions for acceptance of late payment of issue fees in applications for design patents as though no abandonment had ever occurred where the delay in payment was unavoidable (§ 1.155(b)) or unintentional (§ 1.55(c)). Section 1.316 provides for petitions for acceptance of late payment of issue fees in applications for patent as though no abandonment had ever occurred where the delay in payment was unavoidable (§ 1.316(b)) or unintentional (§ 1.316(c)). Section 1.317 provides for acceptance of late payment of the balance of issue fees in patents as though no lapse had ever occurred where the delay in payment was unavoidable (§ 1.317(b)) or unintentional (§ 1.317(c)).

In order to obtain relief under the unavoidable standard in the above-noted sections, the regulations require the filing of a terminal disclaimer if the petition is filed more than six months after the date of abandonment. See §§ 1.137(c), 1.155(d), 1.316(d) and 1.317(d). The terminal period to be disclaimed is a period equivalent to the period of abandonment. The period of abandonment is considered to be the number of months lapsed from the date of abandonment until the date of filing of a grantable petition.

Petitions filed under the unintentional standard in the above-noted sections have no express promptness requirement, nor a terminal disclaimer requirement. This has led, in many cases, to a practice contrary to the intent of the unintentional provisions. Applicants have often delayed filing a petition under the unintentional standard until close to the expiration of the one-year period. In other instances, applicants delayed filing a petition under the unintentional standard because they miscalculated the one-year period and this resulted in the applicant being unable to show that the delay was unavoidable or that relief was available under the unintentional standard. *In re Application of S*, 8 USPQ2d 1630 (Comm'r pat. 1988).

The proposed change to require terminal disclaimers for petitions under the unintentional standard filed more than six months after the date of abandonment will help to ensure that petitions are filed promptly after discovery of abandonment. The same degree of promptness is required regardless of whether the petitions are filed under the unavoidable or the unintentional standards. The requirement for a terminal disclaimer should not be viewed as a substitute for the requirement of prompt filing of a petition. See *In re Application of Takao*, 17 USPQ2d 1155 (Comm'r Pat. 1990); "Diligence in Filing Petitions to Revive and Petitions to Withdraw the Holding of Abandonment", 1124 *Off. Gaz. Pat. Office* 33 (March 19, 1991).

Sections 1.137(c), 1.155(d) and 1.316(d) are proposed to be amended to reflect the current practice that a terminal disclaimer filed for the purpose of reviving an application also applies to a patent granted on any continuing application entitled to the benefit of the filing date of the subject application under 35 U.S.C. 120.

Applicants may petition under the provisions of § 1.183 for a waiver of the requirement that a period equivalent to the period of abandonment be disclaimed if it can be shown that an extraordinary situation exists in which justice requires waiver of this requirement.

In situations where petitions under the above-noted sections were not grantable because of insufficient evidence submitted or petitioner's failure to comply with certain requirements, the Office dismissed those petitions with an indication as to the missing items and warned petitioners that if reconsideration was desired a renewed petition supplying the omissions had to be filed promptly. While the promptness requirement was not precisely defined, § 1.181(f) requires the filing of petitions within two months from an action complained of in order to avoid possible dismissal of the petition on the grounds that it was not timely filed. It is proposed that the above-noted sections be amended to specify a two-month period or such time as may be set in the dismissal as being the appropriate deadline for requesting reconsideration. In those situations where petitioners require more time to gather additional evidence or items needed for reconsideration, an extension of time of up to four months may be obtained under the provisions of § 1.136(a). The filing of a renewed petition within the period specified in the decision or within the extended period permitted under § 1.136 will satisfy the promptness requirement of petitions under the unavoidable standard. Upon failure to timely file a renewed petition under the unavoidable standard, the Office will require a showing of unavoidable delay for the entire period of abandonment. Upon failure to timely file a renewed petition under the unintentional standard, petitioner may be subject to a loss of the right to proceed under the unintentional standard if more than one year lapsed between the date of abandonment and the date the renewed petition is filed.

The unintentional provisions specified in § 1.137(b) will apply to applications abandoned under § 1.53(d). Effective November 5, 1990, the Commissioner waived, under § 1.183, the exception specified in § 1.137(b) as to applicability of petitions under the unintentional standards to applications abandoned under § 1.53(d). See "Petitions to Revive Patent Applications Waiver of Provisions of 37 CFR § 1.137(b)", 1121 *Off. Gaz. Pat. Office* at 6 (December 4, 1990). The proposed change in § 1.137(b) will incorporate this new practice into the regulations.

The Office adopted a policy wherein, under certain strictly limited conditions, the one-year period for requesting revival of an unintentionally abandoned application could be waived. Accordingly, the prohibition against requests for waiver found in § § 1.137(b), 1.155(c). 1.316(c) and 1.317(c) is proposed to be deleted. See "Petitions Under 37 CFR 1.183 to Waive the One Year Time Period Requirement in 37 CFR 1.137(b), 1.155(c) and 1.316(c)" at 1059 *Off. Gaz. Pat. Office* 4 (October 1, 1985). However, applicants are cautioned that waiver of the one-year deadline under the unintentional standard will continue to be subject to strictly limited conditions.

(3) Issue and term of design patents (§ 1.155)

Section 1.155 is proposed to be amended to be consistent with the proposed changes to § 1.137. Paragraph (b) of § 1.155 is further proposed to be modified to correct a typographical error. In the reference to fee section 1.17(1), the letter (l) should have appeared instead of the numeral (1).

(4) Application abandoned for failure to pay issue fee (§ 1.316)

Section 1.316 is proposed to be amended to be consistent with the proposed changes to § 1.137. Paragraph (b) of § 1.316 is further proposed to be modified to correct a typographical error. In the reference to fee section 1.17(1), the letter (l) should have appeared instead of the numeral (1).

(5) Lapsed patents; delayed payment of balance of issue fee (§ 1.317)

Section 1.317 contains a provision regarding issue fees paid prior to October 1, 1982. Prior to that date, the Office charged an initial base issue fee and, depending on the size of the specification and drawings printed, billed applicants for a balance of issue fee due. Subsequent to October 1, 1982, all applicants were required to pay the same issue fee regardless of the size of the specification and drawings. Reference to the date in § 1.317 may be deleted at this point in time since it is no longer relevant to pending applications. However, practice under this section continues to be relevant when a fee change becomes effective before payment is received.

In order to satisfy the requirement of 35 U.S.C. 151, the Office mails out a Notice of Allowance which specifies the sum of the issue fee due. When the issue fee amount is changed, the sum specified on the Notice of Allowance is at times different from that required at the time payment is actually received in the Office. If applicants submit issue fee payments in the amount specified on the Notice of Allowance after the effective date of a fee increase, then a balance of issue fee is due. The Office will accept payment of the amount specified on the Notice of Allowance and process the application into a patent. In accordance with 35 U.S.C. 151 and 37 CFR 1.317, a notice is sent to applicants requesting payment of the balance of the issue fee due (the difference between the fee due at time of receipt of payment in the Office and the fee specified on the Notice of Allowance) and setting a three-month period for payment. See *In re Mills*, 12 USPQ2d 1847 (Comm'r Pat. 1989). Failure to pay the balance of the issue fee within the specified three-month period will result in lapse of the patent. Therefore, the reference to October 1, 1982, in § 1.317 is proposed to be replaced by language specifying the consequences of failure to pay the issue fee due at the time payment is made.

Other amendments are proposed to make § 1.317 consistent with the proposed changes in § 1.137. Paragraph (b) of § 1.317 is further proposed to be modified to correct a typographical error. In the reference to fee section 1.17(1), the letter (l) should have appeared instead of the numeral (1).

(6) Delayed payment of maintenance fee (§ 1.378)

Petitions to accept delayed payment of a maintenance fee in an expired patent require a showing of unavoidable delay. In the case of petitions filed more than six months after expiration of a patent, § 1.378(c) further requires a showing that the failure to timely pay the maintenance fee was beyond the control of the patentee. The Office has determined that the "beyond the control" standard does not find adequate support in the relevant statute (35 U.S.C. 41(c)) or in the legislative history of Public Law 97-247. See "Acceptance of Delayed Payment of Maintenance Fees in Expired Patents", 1115 *Off. Gaz. Pat. Office* 18 (June 12, 1990).

Furthermore, the practice of accepting late payment of maintenance fees is proposed to be modified to be more analogous to the practice of reviving abandoned applications and accepting late payment of issue fees. Additionally, the public interest is best served by prompt reinstatement of a patent in which there was an unavoidable or unintentional delay in the timely payment of the maintenance fee.

The requirements for a petition to accept late payment of a maintenance fee, where the delay was unavoidable, are outlined in paragraph (b) of § 1.378. In addition to the maintenance fee and surcharge previously required, paragraph (b) is proposed to be amended to require a petition fee and prompt filing of a petition after the patentee is notified, or otherwise becomes aware, of the expiration of the patent.

The Bill, if enacted, would amend subsection 41(c)(1) of title 35, United States Code, to permit the Commissioner to accept late payment of any maintenance fee filed within eighteen months after the six-month grace period, or within such shorter time as fixed by the Commissioner, if the delay in payment is shown to the satisfaction of the Commissioner to have been unintentional. In order to implement the legislation proposed in the Bill, if enacted, paragraph (c) of § 1.378 is proposed to be modified to permit the filing of a petition to accept late payment of a maintenance fee, where the delay in payment was unintentional.

It is in the public's interest to know as soon as possible if an expired patent will be reinstated. Accordingly, paragraph (c) of § 1.378 is proposed to be amended to permit reinstatement of an unintentionally expired patent, provided that the petition is filed within six months of the end of the grace period specified at 35 U.S.C. 41(b), or within two months of the date patentee became aware of the expiration of the patent, but not later than eighteen months after the grace period.

In addition to the timeliness deadlines set forth in the preceding paragraph, it is proposed that a petition filed under the unintentional standard of § 1.378(c) would have to include the petition fee set forth in § 1.17(m)(3), the required maintenance fee set forth in § 1.20 (e) through (g), the surcharge for an expired patent as set forth in § 1.20(i) and a statement that the delay in timely payment of the maintenance fee was unintentional.

For a transitional period of two months from the date of enactment of the Bill, the requirement, specified in proposed § 1.378(c)(5), that any petition, be filed within six months of the end of the grace period, or within two months of the date patentee became aware of the expiration of the patent, will be waived, sua sponte, pursuant to § 1.183 to allow consideration of any petition filed within eighteen months of the end of the grace period.

If the Bill is not enacted, the proposed changes to §§ 1.17, 1.378(a) and 1.378(c) will not include the changes proposed in the Bill relative to acceptance of late payment of maintenance fees under the unintentional standard.

Other Considerations

The proposed rule change is in conformity with the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq* .), Executive Orders 12291 and 12612 and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq*.

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that these proposed rule changes will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)). The principal impact of these proposed changes is to incorporate existing Office policy into the regulations and to provide a more efficient procedure to revive abandoned applications.

The Office has determined that this proposed rule change is not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers; individuals; industries; Federal, state or local government agencies; or geographic regions because most of the proposed changes reduce procedural burdens. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Office has also determined that this notice has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

These proposed rule changes contain a collection of information requirements subject to the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et se., which has previously been approved by the Office of Management and Budget under Control No. 0651-0011.

3. Section 1.137 is proposed to be amended by revising paragraphs (a)-(c) and adding paragraphs (d) and (e) to read as follows:

§ 1.137 Revival of abandoned application.

(a) An application abandoned for failure to prosecute may be revived as a pending application if it is shown to the satisfaction of the Commissioner that the delay was unavoidable. A petition to revive an abandoned application must be promptly filed after the applicant is notified of, or otherwise becomes aware of, the abandonment, and must be accompanied by ▶ :

(1) a proposed response to continue prosecution of that application, or the filing of a continuing application, unless either has been previously filed;

(2) the petition fee as set forth in § 1.17(1); and

(3) a showing that the delay was unavoidable.◀ [a showing of the causes of the delay, by the proposed response unless it has been previously filed, and by the petition fee set forth in § 1.17(1). Such] ▶The◀ showing must be a verified showing if made by a person not registered to practice before the Patent and Trademark Office.

(b) An application unintentionally abandoned for failure to prosecute [, except pursuant to § 1.53(d),] may be revived as a pending application if the delay was unintentional. [A petition to revive an unintentionally abandoned application must be filed within one year of the date on which the application became abandoned or be filed within three months of the date of the first decision on a petition to revive under paragraph (a) of this section which was filed within one year of the date of abandonment of the application.] A petition to revive an unintentionally abandoned application must be [accompanied by] :

(1) ▶accompanied by a proposed response to continue prosecution of that application, or the filing of a continuing application, unless either has been previously filed;

(2) accompanied by the petition fee as set forth in § 1.17(m);

[The three-month period from the date of the first decision referred to in this paragraph may be extended under the provisions of § 1.136(a), but no further extensions under § 1.136(b) will be granted. Petitions to the Commissioner under § 1.183 to waive any time periods for requesting acceptance of an unintentionally delayed payment will not be considered, but will be returned to the applicant.]

(d) Any petition pursuant to [paragraph] ▶paragraphs◀ (b) ▶or (c)◀ of this section not filed within six months of the date of lapse ▶of the patent,◀ must be accompanied by a terminal disclaimer with fee under § 1.321 dedicating to the public a terminal part of the term of the patent equivalent to the period of lapse of the patent.

▶(e) Any request for reconsideration or review of a decision refusing to accept the delayed payment upon petition filed pursuant to paragraphs (b) or (c) of this section, to be considered timely, must be filed within two months of the decision refusing to accept the delayed payment or within such time as set in the decision.

(f) The time periods set forth in this section cannot be extended, except that the three-month period set forth in paragraph (c)(4)(ii) and the time period set forth in paragraph (e) of this section may be extended under the provisions of § 1.136.◀

7. Section 1.378, paragraphs (a), (b), (c) and (e) are proposed to be revised to read as follows:

§ 1.37 Acceptance of delayed payment of maintenance fee in expired patent to reinstate patent.

(a) The Commissioner may accept the payment of any maintenance fee due on a patent after expiration of the patent if, upon petition, the delay in payment of the maintenance fee is shown to the satisfaction of the Commissioner to have been unavoidable [and if the surcharge required by § 1.20(i) is paid as a condition of accepting payment of the maintenance fee] ▶or unintentional◀. If the Commissioner accepts payment of the maintenance fee upon petition, the patent shall be considered as not having expired, but will be subject to the conditions set forth in 35 U.S.C. 41(c)(2).

(b) Any petition to accept [the] ▶an unavoidably◀ delayed payment of a maintenance fee filed under paragraph (a) of this section [within six months of the expiration of the patent] must include:

(1) ▶The petition fee set forth in § 1.17(1)(3);

(2)◀ The required maintenance fee set forth in § 1.20 (e)-(g);

[(2)] ▶(3)◀ The surcharge set forth in § 1.20(i); and

[(3)] ▶(4)◀ A showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely ▶and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent◀. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee ▶the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly◀.

(c) Any petition to accept [the] ▶an unintentionally◀ delayed payment of a maintenance fee filed under paragraph (a) of this section [more than six months after the expiration of the patent] must [include] ▶be◀:

(1) ▶accompanied by the petition fee set forth in § 1.17(m)(3);

(2) accompanied by the◀ [The] required maintenance fee set forth in § 1.20 (e)-(g) [.] ▶;◀

[(2)] ▶(3) accompanied by the◀ [The] surcharge set forth in § 1.20(i); [and

(3) A showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and the failure to timely pay the maintenance fee was due entirely to circumstances outside of the control of the patentee. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee and the circumstances which were outside of the control of the patentee and those acting on behalf of the patentee in paying the maintenance fee. The showing must be sufficient in scope and content to meet the heavy burden of proof required to show that a delay in payment of the maintenance fee of more than six months after expiration of the patent was unavoidable.]

▶(4) accompanied by a statement that the delay was unintentional; and

(5) filed:

(i) within six months of the end of the grace period specified at 35 U.S.C. 41(b); or

(ii) within two months of the date patentee became aware of the expiration of the patent and within eighteen months of the end of the grace period.◀

(d) ***

(e) Reconsideration of a decision refusing to accept a maintenance fee upon petition filed pursuant to paragraph (a) of this section may be obtained by filing a petition for reconsideration within two months of, or such other time as set in, the decision refusing to accept the delayed payment of the maintenance fee. Any such petition for reconsideration must be accompanied by the petition fee set forth in § 1.17(h). After decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner. If the delayed payment of the maintenance fee is not accepted, the maintenance fee and the surcharge set forth in § 1.20(i) will be refunded following the decision on the petition for reconsideration, or after the expiration of the time for filing such a petition for reconsideration, if none is filed. [The] ▶Any petition◀ fee [set forth in § 1.17(h) for filing the petition for reconsideration] ▶under this section◀ will not be refunded unless the refusal to accept and record the maintenance fee is determined to result from an error by the Patent and Trademark Office.

DEPARTMENT OF COMMERCE
Patent and Trademark Office
37 CFR part 1
[Docket No. 920775 - 2175]
RIN 0651-AA44
Changes in Patent Drawing Standards

Agency: Patent and Trademark Office, Commerce
Action: Notice of Proposed Rulemaking
Summary: The Patent and Trademark Office (Office) is proposing to amend the rules of practice regarding patent drawings to adopt international standards and to eliminate unnecessary requirements.

The Office proposes to amend the rules to: (1) revise § 1.84 to provide clarification and adopt international standards; (2) delete § 1.88; (3) delete in § 1.123 the reference to changes by bonded draftsmen since the Office will no longer release drawings from patent applications; (4) revise § 1.152 for design drawings to include the option of submitting black and white photographs in lieu of black ink drawings; and (5) revise § 1.165 for plant patent drawings to eliminate the acceptability of mounted photographs.

Dates: Written comments must be received on or before Oct. 16, 1992 to ensure consideration. An oral hearing will not be conducted.

Address: Address written comments to Office of the Assistant Commissioner for Public Services and Administration, Commissioner of Patents and Trademarks, Washington, D.C. 20231, marked to the attention of Richard A. Bawcombe. Comments may also be sent by facsimile transmission to the attention of Richard A. Bawcombe at (703) 305-8294.

For Further Information Contact: Richard A. Bawcombe by telephone at (703) 305-8594 or by mail marked to his attention and addressed to Commissioner of Patents and Trademarks, Washington, D.C. 20231.

Supplementary Information: Drawings acceptable for patent applications filed outside of the United States are not always acceptable when filed in a patent application filed in the United States. Therefore, the rules relating to drawing requirements are proposed to be amended to enable the Office, when appropriate,

to accept drawings that are capable of clear reproduction for the printing of any resulting patent. Drawings in compliance with the present § 1.84 will be in compliance with proposed § 1.84.

Discussion of Specific Sections to be Changed or Added:

Section 1.17(h) is proposed to be amended to include the appropriate processing fee for accepting color drawings or photographs in utility patent applications as set forth in § 1.84.

Section 1.19(a)(3) is proposed to be amended to change the citation of § 1.84(p) to § 1.84(a)(2) so that § 1.19(a)(4), which sets the fee for colored drawings refers to the proper paragraph of § 1.84 that discusses color drawings.

Section 1.71(d) is proposed to be amended to change the citation of § 1.84(o) to § 1.84(s) because § 1.84(s) specifies how mask work notices should be placed on the drawings.

Section 1.84 is proposed to be revised as follows:

(a) Drawings. This paragraph is proposed to classify drawings into two categories, i.e., black ink and color and delete the limitation that the use of white pigment to cover lines is not normally acceptable. The black ink drawing requirements are proposed to be amended to allow computer-generated drawings to be accepted subject to the same standards applied to pen and ink drawings. Color drawing requirements would be moved from § 1.84(p) to proposed § 1.84(a). Color drawings may be acceptable upon the granting of a petition filed under this paragraph explaining why the color drawings are necessary. A petition is required because the special handling necessary for color drawings is time consuming and the Office cannot permit such a special procedure except in exceptional circumstances. Since utility patents are not printed in color, 5 sets of color drawings are necessary for proper distribution within the Office. One set will be attached to the Letters Patent for routing to the applicant. The remaining four sets will be attached to patent copies for routing to (1) the patent file, (2) the Office of Administrative Services for archival storage at Boyers, Pennsylvania, (3) the plant patent search room for archival storage at the Office, and (4) the Office of Patent and Trademark Information Services for copying purposes.

(b) Photographs. This paragraph is proposed to permit the acceptance of photographs (limited to a single photograph per sheet), upon granting of an applicant's petition. The Office proposes to accept black and white and color photographs or photomicrographs (not photolithographs or other reproductions of photographs made by using screens) developed on double weight photographic paper in lieu of ink drawings. Mounted photographs would not be acceptable. The photographs must be of sufficient quality so that all details in the drawing are reproducible in the printed patent.

(c) Identification of drawings. This paragraph is proposed to be changed and broadened to permit an applicant to provide proper identification information on the reverse side of each sheet of drawings. The identification information allows the Office to match drawing sheets with the proper application. The identification information should include the application number, if known, or the title of the invention, inventor's name, docket number (if any), and name and telephone number of the person to call if the drawings cannot be matched to the proper patent application. The Office will not object if identifying information is not present; however, if the drawings become separated, the Office will not be able to match those drawings to the application. This paragraph is restructured from current § 1.84(l) and revised to state that the preferred placement of the information is on the back side of the drawing sheets.

(d) Graphic forms and drawings. This paragraph is proposed to set standards for chemical and mathematical formulae to align Office standards for formulae, tables, and waveforms with international standards.

(e) Type of paper. This paragraph is proposed as a revision of current § 1.84(a) to set forth the requirement for the type of paper to be used for drawings, including the type of paper for photographs.

(f) Size of paper. This paragraph is proposed to clarify Office requirements set forth in current § 1.84(b) and to provide that color drawings and photographs must be 21.0 cm. by 29.7 cm. (DIN size A4). Other drawings may be any of 3 sizes: 21.0 cm. by 29.7 cm. (DIN size A4), 21.6 cm. by 33.1 cm. (8 1/2 by 13 inches), or 21.6 cm. by 35.6 cm (8 1/2 by 14 inches).

(g) Margins. This paragraph is restructured from current § 1.84(b) to indicate how the size of the paper changes the margin requirements. The Office will accept 3 sizes of paper, however, the sight (i.e. the usable surface) is the same for 2 of the paper sizes, i.e., 21.6 cm. by 33.1 cm. (8 1/2 by 13 inches), or 21.6 cm. by 35.6 cm. (8 1/2 by 14 inches).

(h) Views. This paragraph is proposed to reformat current § 1.84(i) to provide a logical arrangement of the different views provided in the rules, to revise the standards for purposes of clarification, to include the standard for waveforms to show the relative timing, to provide clearer language relative to hatching shown on drawings, to set forth the standard for depicting hatching in sectional views as one view for the purpose of achieving the necessary clarity as sublimentary views maybe added giving a larger-scale of cross-hatching strokes, and to include requirements pertaining to alternate positions. In addition, both Roman and Arabic numerals would be acceptable to designate the section being illustrated.

(i) Arrangement of views. This paragraph is proposed to be relocated from current § 1.84(j) and to be revised to incorporate international standards. In addition, this paragraph is proposed to be changed and broadened to provide placement of words on drawings, as set forth in proposed § 1.84(i). One view is not to be superimposed within the outline of another. The changes expand the possibilities for presenting graphs to conform to standard scientific conventions, while using a format which is compatible with automated patent searching displays. *See 1121 Off. Gaz. Pat. Office* 54 (Dec. 25, 1990) and 1129 *Off. Gaz. Pat. Office* 22 (Aug. 13, 1991).

(j) View for *Official Gazette*. This paragraph is proposed to be relocated from current § 1.84(k).

(k) Scale. This paragraph is proposed to be relocated from current § 1.84(e) and § 1.84(i) and to be revised to indicate that the words "actual size" or "scale 1/2" on the drawings are not permitted since the meaning is lost in reduction/enlargement; and to provide that elements of the same view must be in proportion to each other, unless a difference in proportion is indispensable for the clarity of the view. As a preferred alternative to a difference in proportion within regularly parallel oblique strokes which precludes use illustration of an element from the initial view. When a supplementary view is included, it is recommended that the enlarged element shown in the second view be surrounded by a finely drawn or "dot-dash" circle in the first view pinpointing its location, without obscuring the view.

(l) Character of lines, numbers, and letters. This paragraph is proposed to be relocated from current § 1.84(c) and to be revised to show that lines and strokes of different thicknesses may be used in the same drawing where different thicknesses have different meanings. In addition, this paragraph is proposed to be changed and broadened to indicate that all drawings must be made by a process which will give them satisfactory reproduction characteristics.

(m) Shading. This paragraph is proposed to be changed and broadened to expand definitions for shading and to delete the limitation that drawings transmitted to the Office should be sent flat, protected by a sheet of heavy binder's board, or may be rolled for transmission in a suitable mailing tube. This proposed change would provide the individual practitioner with greater discretion on how to send drawings. In addition, this paragraph is proposed to be relocated from current § 1.84(d) to separate shading requirements from hatching requirements by stating that shading may be used to indicate the surface or shape of spherical, cylindrical, and conical elements of an object, and that spaced lines are preferred for shading purposes. Solid black areas are not permitted, except when used to represent bar graphs or color.

(n) Symbols. This paragraph is proposed to be relocated from current § 1.84(g) to separate symbols requirements from legends requirements and to enlarge the number of acceptable symbols. Known devices should be illustrated by symbols which have a universally-recognized meaning, and which are generally accepted in the art, provided no further detail is essential for understanding the subject matter of the claimed invention. All symbols must be approved by the examiner. Other symbols may be used if they are not likely to be confused with existing conventional symbols and if they are readily identifiable.

(o) Legends. This paragraph is proposed to be relocated from current § 1.84(g) to separate legends requirements from symbols requirements and to be revised to integrate international standards. Where text matter is deemed indispensable for understanding the drawing, a minimum of words should be used. Words should not be used to describe the figure itself, such as "this is a bar graph." All text legends must be approved by the examiner.

(p) Numbers, letters, and reference characters. This paragraph is proposed to be relocated from current § 1.84(f) and to be revised to include numbers and letters in the heading formerly designated "reference characters." This section has been reformatted into five subsections and revised to integrate international standards, where possible. Although the Latin alphabet is used in the international standard, the Office takes the view that the English alphabet is more universally acceptable for letters, except where another alphabet is customarily used, such as the Greek alphabet to indicate angles, wavelengths, and mathematical formulas. In addition, the characters used must be oriented in the same direction as the view so as to avoid having to rotate the sheet. Reference characters should be so arranged to follow the profile of the object depicted.

(q) Lead lines. This paragraph is proposed to integrate international standards, to incorporate brief language which appears in current § 1.84(f), and to change and expand the definition for lead lines. Lead lines are those lines between the reference characters and the details referred to, and they must be executed in the same way as other lines in the drawing.

(r) Arrows. This paragraph is proposed to be relocated from current § 1.84(g) and to be revised to indicate the meaning of the use of arrows, and to show that they may be used at the end of lead lines only if their meaning is clear.

(s) Copyright or mask work notice. This paragraph is proposed to be relocated from current § 1.84(o).

(t) Numbering of sheets of drawings. This paragraph is proposed to be relocated from current § 1.84(n) and to be changed and broadened to allow for the placement of sheet numbers within the sight of the drawing. It is preferable that the sheets be numbered with two Arabic numerals placed on either side of an oblique line, with the first number being the sheet number and the second the total number of sheets of drawings.

(u) Numbering of views. This paragraph is proposed to be relocated from current § 1.84(i) and, for clarity, to be separately identified in this new section. Use of the abbreviation "FIG." must precede all view numbers.

(v) Security markings. This paragraph is proposed to be relocated from current § 1.84(l) to provide that security markings may be placed on the drawings if they are outside the sight and preferably centered in the top margin.

(w) Corrections. This paragraph is proposed to provide that any corrections made on drawings submitted to the Office must be durable and permanent. The language is revised from current § 1.84(a) which prohibits the use of white pigment to cover lines.

(x) Holes. This paragraph is proposed to be relocated from current § 1.84(b) to permit two holes to be punched in the top margin of the drawings with their centerlines spaced 7.0 cm. (2 3/4 inches) apart.

Section 1.88 is proposed to be removed and reserved since the changes effective January 1, 1991, in § 1.85(b) make the regulation regarding the transfer of drawings unnecessary. Since the Office no longer releases drawings from patent applications, generally applicants are retaining the master copy of the drawings. Accordingly, applicants can easily file a copy of drawings in an application and therefore eliminate the need for the office to transfer drawings. Any situations which prevent a hardship to applicants may be accomodated by the filing of a petition under § 1.182 requesting the transfer of the drawings.

Section 1.123 prescribes procedures for amending drawings. With the adoption of new rules for amending drawings effective January 1, 1989, the Office no longer requires the submission of formal drawings upon filing a patent application. See 1097 *Off. Gaz. Pat. Office* 36 (Dec. 13, 1988). Since corrections are the responsibility of the applicant, the original drawing(s) should be retained by the applicant for future correction, if necessary.

As a result of adoption of the new rules in 1989 relating to drawings, the Office will no longer release to applicants, bonded drafting companies or others, drawings from patent applications. Effective January 1, 1991, § 1.85(b) prohibits release of drawings from all patent applications. Accordingly, it is proposed that the reference to changes by bonded draftsmen be deleted from § 1.123.

Section 1.152 is proposed to be revised to provide that photographs and ink drawings must not be combined in one design application. The reason for this requirement is to avoid inconsistencies between the photograph and the drawing, and further eliminate views that may distort the proportionate relationship between the corresponding elements on the drawing and the photograph. It is also proposed that all design photographs be limited to the design claimed and not include environmental structure. It is proposed that color drawings and color photographs not be permissible in design patent applications. Solid black surface shading is inappropriate on a design drawing, but is acceptable when used to represent color contrast.

Section 1.165 is proposed to be revised to provide that plant patent drawings must comply with the requirements of § 1.84. It is proposed that the current exception that plant patent drawings do not automatically require view numbers and reference characters be maintained. It is also proposed that mounted color photographs would not be acceptable in plant patent applications.

Other Considerations:

The proposed rule change is in conformity with the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), Executive Orders 12291 and 12612, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that these proposed rule changes will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)). The principal impact of these proposed changes is to revise and reformat the drawing standards to adopt international standards, to the extent possible, and to facilitate access to sections through inclusion of pertinent subsection headings, which should be helpful to small entities.

The Office has determined that this proposed rule change is not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individuals, industries, Federal, state or local government agencies, or geographic regions because most of the proposed changes reduce procedural burdens. There will be no adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Office has also determined that this notice has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

These proposed rule changes contain a collection of information requirements subject to the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*, which has previously been approved by the Office of Management and Budget under Control No. 0651-0011.

(d) A copyright or mask work notice may be placed in a design or utility patent application adjacent to copyright and mask work material contained therein. The notice may appear at any appropriate portion of the patent application disclosure. For notices in drawings, see § 1.84([o]▶s◀). The content of the notice must be limited to only those elements ▶provided for◀ [required]by law. For example, "©1983 John Doe" (17 U.S.C. 401) and "*M* John Doe" (17 U.S.C. 909) would be properly limited and, under current statutes, legally sufficient notices of copyright and mask work, respectively. Inclusion of a copyright or mask work notice will be permitted only if the authorization language set forth in paragraph (e) of this section is included at the beginning (preferably as the first paragraph) of the specification.

* * * * *

5. Section 1.84 is proposed to be revised to read as follows:

§ 1.84. Standards for drawings.

▶(a) *Drawings*. There are two acceptable categories for presenting drawings in utility patent applications:

(1) *Black ink*. Black and white drawings are normally required. India ink, or its equivalent in quality, must be used for drawings to secure black solid lines.

(2) *Color*. On rare occasions, color drawings may be necessary as the only practical medium by which to disclose the subject matter sought to be patented in utility patent applications or to be the subject matter of a Statutory Invention Registration (SIR). The Patent and Trademark Office will accept color drawings in utility patent applications and SIR's only after granting a petition filed under this paragraph explaining why the color drawings are necessary. Any such petition must include the following:

(i) The appropriate fee set forth in § 1.17(h);

(ii) Five (5) sets of color drawings on 21.0 by 29.7 cm. (DIN size A4) sheets; and

(iii) If the specification does not address color drawings, the following language is to be inserted as the first paragraph in that portion of the specification relating to the brief description of the drawing:

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawing(s) will be provided by the Patent and Trademark Office upon request and payment of the necessary fee.

If the above language is not in the specification, a proposed amendment to insert the language must accompany the petition.

(b) *Photographs*.

(1) *Black and white*. Photographs are not ordinarily permitted in utility and design patent applications. However, the Office will accept photographs in utility and design patent applications only after granting a petition, filed under this paragraph which requests that photographs be accepted. Any such petition must include the following:

(i) The appropriate fee set forth in § 1.17(h); and

(ii) Five (5) sets of photographs on 21.0 by 29.7 cm. (DIN size A4) sheets. Photographs must be developed on double weight photographic paper. Mounted photographs are not acceptable. No more than one photograph per sheet will be permitted. The photographs must be of sufficient quality so that all details in the drawing are reproducible in the printed patent.

(2) *Color*. Color photographs will be accepted in utility patent applications if the conditions for accepting color drawings have been satisfied. See paragraph (a)(2) of this section.

(c) *Identification of drawings*. Identifying indicia, if provided, should include the application number or the title of the invention, inventor's name, docket number (if any), and the name and telephone number of a person to call. This information should be placed on the back of each sheet of drawings a minimum distance of 1.5 cm. (5/8 inch) down from the top of the page.

(d) *Graphic forms in drawings*. Chemical or mathematical formulae, tables, and waveforms may be submitted as drawings, and are subject to the same requirements as drawings. Each chemical or mathematical formula must be labeled as a separate figure, using brackets when necessary, to show that information is properly integrated. Each group of waveforms must be presented as a single figure, using a common vertical axis with time extending along the horizontal axis. Each individual waveform discussed in the specification must be identified with a separate letter designation adjacent to the vertical axis.

(e) *Type of paper*. Drawings submitted to the Office must be made upon paper which is flexible, strong, white, smooth, nonshiny, and durable. All sheets must be free from cracks, creases, and folds. Only one side of the sheet shall be used for the drawing. Each sheet must be reasonably free from erasures and must be free from alterations, overwritings, and interlineations. Photographs must be on double weight photographic paper. See paragraph (b) of this section for other requirements for photographs.

(f) *Size of paper*. All drawing sheets in an application must be the same size, except that color drawings or photographs which are required to be DIN size A4 may differ in size from the other sheets. One of the shorter sides of the sheet is regarded as its top. The size of the sheets on which drawings are made must be:

(1) 21.6 cm. by 35.6 cm. (8 1/2 by 14 inches),
(2) 21.6 cm. by 33.1 cm. (8 1/2 by 13 inches), or
(3) 21.0 cm. by 29.7 cm. (DIN size A4).

(g) *Margins*. The sheets must not contain frames around the sight, i.e., the usable surface.

(1) On 21.6 cm. by 35.6 cm. (8 1/2 by 14 inch) drawing sheets, each sheet must include a top margin of 5.1 cm. (2 inches), and bottom and side margins of 6.4 mm. (1/4 inch) from the edges, thereby leaving a sight precisely 20.3 cm. by 29.8 cm. (8 by 11 3/4 inches).

(2) On 21.6 cm. by 33.1 cm. (8 1/2 by 13 inch) drawing sheets, each sheet must include a top margin of 2.5 cm. (1 inch) and bottom and side margins of 6.4 mm. (1/4 inch) from the edges, thereby leaving a sight precisely 20.3 cm. by 29.8 cm. (8 by 11 3/4 inches).

(3) On 21.0 cm. by 29.7 cm. (DIN size A4) drawing sheets, each sheet must include a top margin of at least 2.5 cm., a left side margin of 2.5 cm., a right side margin of 1.5 cm., and a bottom margin of 1.0 cm., thereby leaving a sight precisely 17.0 cm. by 26.2 cm.

(h) *Views*. The drawing must contain as many views as necessary to show the invention. The views may be plan, elevation, section, or perspective views; and detail views of portions of elements, on a larger scale, if necessary, may also be used. All views of the drawing must be grouped together and arranged on the sheet(s) without wasting space, preferably in an upright position, clearly separated from one another, and must not be included in the sheets containing the specifications, claims, or abstract. Views must not be connected by projection lines and must not contain center lines. Waveforms of electrical signals may be connected by dashed lines to show the relative timing of the waveforms.

(1) *Exploded views*. Exploded views, with the separated parts of the same view embraced by a bracket, to show the relationship or order of assembly of various parts are permissible. When an exploded view is shown in a figure which is on the same sheet as another figure, the exploded view should be placed in brackets.

(2) *Partial views*. When necessary, a view of a large machine or device in its entirety may be broken into partial views on a single sheet, or extended over several sheets if there is no loss in facility of understanding the view. Partial views drawn on separate sheets must always be capable of being linked edge to edge so that no partial view contains parts of another partial view. A smaller scale view should be included showing the whole formed by the partial views and indicating the positions of the parts shown. When a portion of a view is enlarged for magnification purposes, the view and the enlarged view must each be labeled as separate views.

(i) Where views on two or more sheets form in effect a single complete view, the views on the several sheets must be so arranged that the complete figure can be assembled without concealing any part of any of the views appearing on the various sheets.

(ii) A very long view may be divided into several parts placed one above the other on a single sheet. However, the relationship between the different parts must be clear and unambiguous.

(3) *Sectional views*. The plane upon which a sectional view is taken should be indicated on the view from which the section is cut by a broken line, the ends of which should be designated by Arabic or Roman numerals corresponding to the view number of the sectional view, and have arrows applied to indicate the direction of sight. Hatching must be used to indicate section portions of an object, and must be made by regularly spaced oblique parallel lines spaced sufficiently apart to enable the lines to be distinguished without difficulty. Hatching should not impede the clear reading of the reference characters and lead lines. If it is not possible to place reference characters outside the hatched area, the hatching may be broken off wherever reference characters are inserted. Hatching must be at a substantial angle to the surrounding axes or principal lines, preferably 45°. A cross-section must be set out and drawn to show all of the materials as they are shown in the view from which the cross-section was taken. The parts in cross-section must show proper material(s) by hatching with regularly spaced parallel oblique strokes, the space between strokes being chosen on the basis of the total area to be hatched. The various parts of a cross-section of the same item should be hatched in the same manner and should accurately and graphically indicate the nature of the material(s) that is illustrated in cross section. The hatching of juxtaposed different elements must be angled in a different way. In the case of large areas, hatching may be confined to an edging drawn around the inside of the outline of the area to be hatched. Different types of hatching should have different conventional meanings as regards the nature of a material seen in cross-section.

(4) *Alternate position*. A moved position may be shown by a broken line superimposed upon a suitable view if this can be done without crowding; otherwise, a separate view must be used for this purpose.

(5) *Modified forms*. Modified forms of construction must be shown in separate views.

(i) *Arrangement of views*. One view must not be placed upon another or within the outline of another. All views on the same sheet should stand in the same direction and, if possible, stand so that they can be read with the sheet held in an upright position. If views longer than the width of the sheet are necessary for the clearest illustration of the invention, the sheet may be turned on its side so that the top of the sheet, with the appropriate top margin to be used as the heading space, is on the right-hand side. Words must appear in a horizontal, left-to-right fashion when the page is either upright or turned so that the top becomes the right side, except for graphs utilizing standard scientific convention to denote the axis of abscissas (of X) and the axis of ordinates (of Y).

(j) *View for Official Gazette*. One of the views should be suitable for publication in the *Official Gazette* as the illustration of the invention.

(k) *Scale*.

(l) The scale to which a drawing is made must be large enough to show the mechanism without crowding when the drawing is reduced in size to two-thirds in reproduction. Views of portions of the mechanism on a larger scale should be used when necessary to show details clearly. Two or more sheets may be used if one does not give sufficient room. The number of sheets should be kept to a minimum.

(2) When approved by the examiner, the scale of the drawing may be graphically represented. Indications such as "actual size" or "scale 1/2" on the drawings, are not permitted, since these lose their meaning with reproduction in a different format.

(3) Elements of the same view must be in proportion to each other, unless a difference in proportion is indispensable for the clarity of the view. Instead of showing elements in different proportion, a supplementary view may be added giving a larger-scale illustration of the element of the initial view. It is recommended that the enlarged element shown in the second view be surrounded by a finely drawn or "dot-dash" circle in the first view pinpointing its location without obscuring the view.

(l) *Character of lines, numbers, and letters*. All drawings must be made by a process which will give them satisfactory reproduction characteristics. Every line, number, and letter must be durable, clean, sharp, black (except for color drawings), sufficiently dense and dark, and uniformly thick and well-defined. The weight of all lines and letters must be heavy enough to permit adequate reproduction. This direction applies to all lines however fine, to shading, and to lines representing cut surfaces in sectional views. Lines and strokes of different thicknesses may be used in the same drawing where different thicknesses have a different meaning.

(m) *Shading*. The use of shading in views is encouraged if it aids in understanding the invention and if it does not reduce legibility. Shading is used to indicate the surface or shape of spherical, cylindrical, and conical elements of an object. Flat parts may also be lightly shaded. Such shading is preferred in the case of parts shown in perspective, but not for cross-sections. Spaced lines for shading are preferred. These lines must be thin, as few in number as practicable, and they must contrast with the rest of the drawings. As a substitute for shading, heavy lines on the shade side of objects can be used except where they superimpose on each other or obscure reference characters. Light should come from the upper left corner at an angle of 45°. Surface delineations should preferably be shown by proper shading. Solid black shading areas are not permitted, except when used to represent bar graphs or color.

(n) *Symbols*. Graphical drawing symbols may be used for conventional elements when appropriate, subject to approval by the Office. The elements for which such symbols and labeled representations are used must be adequately identified in the

specification. Known devices should be illustrated by symbols which have a universally-recognized conventional meaning and are generally accepted in the art provided no further detail is essential for understanding the subject matter of the claimed invention. Other symbols may be used if they are not likely to be confused with existing conventional symbols, and if they are readily identifiable.

(o) *Legends.* Suitable descriptive legends may be used, subject to approval by the Office. They should contain as few words as possible.

(p) *Numbers, letters, and reference characters.*

(1) Reference characters (numerals are preferred), sheet numbers, and view numbers must be plain and legible, and must not be used in association with brackets, inverted commas, or enclosed within outlines, e.g., encircled. They must be oriented in the same direction as the view so as to avoid having to rotate the sheet. Reference characters should be arranged to follow the profile of the object depicted.

(2) The English alphabet must be used for letters, except where another alphabet is customarily used, such as the Greek alphabet to indicate angles, wavelengths, and mathematical formulas.

(3) Numbers, letters, and reference characters must measure at least 3.2 mm. (1/8 inch) in height. They should not be placed in the drawing so as to interfere with its comprehension. Therefore, they should not cross or mingle with the lines. They should not be placed upon hatched or shaded surfaces. When necessary, a blank space may be left in the hatching or shading where the character occurs so that it appears perfectly distinct.

(4) The same part of an invention appearing in more than one view of the drawing must always be designated by the same reference character, and the same reference character must never be used to designate different parts.

(5) Reference characters not mentioned in the description shall not appear in the drawings. Reference characters mentioned in the description must appear in the drawings.

(q) *Lead lines.* Lead lines are those lines between the reference characters and the details referred to. Such lines may be straight or curved and should be as short as possible. They must originate in the immediate proximity of the reference character and extend to the feature indicated. Lead lines must not cross each other. Lead lines are required for each reference character except for those which indicate the surface or cross-section on which they are placed. Such a reference character must be underlined to make it clear that a lead line has not been left out by mistake. Lead lines must be executed in the same way as lines in the drawing.

(r) *Arrows.* Arrows may be used at the ends of lines, provided that their meaning is clear, as follows:

(1) On a lead line, a freestanding arrow to indicate the entire section towards which it points;

(2) On a lead line, an arrow touching a line to indicate the surface shown by the line looking along the direction of the arrow; or

(3) To show the direction of movement.

(s) *Copyright or Mask Work Notice.* A copyright or mask work notice may appear in the drawing, but must be placed within the sight of the drawing immediately below the figure representing the copyright or mask work material and be limited to letters having a print size of 3.2 mm. to 6.4 mm. (1/8 to 1/4 inches) high. The content of the notice must be limited to only those elements provided for by law. For example, "©1983 John Doe" (17 U.S.C. 401) and "*M* John Doe" (17 U.S.C. 909) would be properly limited and, under current statutes, legally sufficient notices of copyright and mask work, respectively. Inclusion of a copyright or mask work notice will be permitted only if the authorization language set forth in § 1.71(e) is included at the beginning (preferably as the first paragraph) of the specification.

(t) *Numbering of sheets of drawings.* The sheets of drawings should be numbered in consecutive Arabic numerals within the sight as defined in paragraph (g) of this section. These numbers, if present, must be placed in the middle of the top of the sheet, but not in the margin. The numbers can be placed on the right-hand side if the drawing extends too close to the middle of the top edge of the usable surface. The drawing sheet numbering must be clear and larger than the numbers used as reference characters to avoid confusion. Sheets of drawings must be paginated from 1 onward. The number of each sheet should be shown by 2 Arabic numerals placed on either side of an oblique line, with the first being the sheet number, and the second being the total number of sheets of drawings, with no other marking.

(u) *Numbering of views.*

(1) The different views must be numbered in Arabic numerals consecutively, starting with 1, independent of the numbering of the sheets and, if possible, in the order in which they appear on the drawing sheet(s). Partial views intended to form one complete view, on one or several sheets, must be identified by the same number followed by a capital letter. View numbers must be preceded by the abbreviation "FIG. Where a single view is used to illustrate the claimed invention, it must not be numbered and the abbreviation "FIG."must not appear.

(2) Numbers and letters identifying the views must be simple and clear and must not be used in association with brackets, circles, or inverted commas. The view numbers must be larger than the numbers used for reference characters.

(v) *Security markings.* Authorized security markings may be placed on the drawings provided they are outside the sight, preferably centered in the top margin.

(w) *Corrections.* Any corrections on drawings submitted to the Office must be durable and permanent.

(x) *Holes.* The drawing sheets may be provided with 2 holes in the top margin. The holes should be equally spaced from the respective side edges, and their centerlines should be spaced 7.0 cm. (2 3/4 inches) apart.

(See § 1.152 for design drawings, § 1.165 for plant drawings, and § 1.174 for reissue drawings.)◀

6. Section 1.88 is proposed to be removed and reserved as follows:

§ 1.88 ▶[Reserved]◀ [Use of old drawings.]

[If the drawings of a new application are to be identical with the drawings of a previous application of the applicant on file in the Office, or with part of such drawings, the old drawings or any sheets thereof may be used if the prior application is, or is about to be, abandoned, or if the sheets to be used are cancelled in the prior application. The new application must be accompanied by a letter requesting the transfer of the drawings, which should be completely identified.]

7. Section 1.123 is proposed to be revised to read as follows:

§1.123 Amendments to the drawing.

No change in the drawing may be made except by permission of the Office. Permissible changes in the construction shown in any drawing may be made only by [bonded draftsmen, at applicants expense, or by]the submission of ▶a◀ substitute [drawings] ▶drawing◀ by applicant. A sketch in permanent ink showing proposed changes, to become part of the record, must be filed for approval by the examiner and should be a separate paper.

8. Section 1.152 is proposed to be revised to read as follows:

§ 1.152 ▶Design◀ Drawing.

The design must be represented by a drawing ▶that complies◀ [made in conformity]with the ▶requirements of § 1.84◀ [rules laid down for drawings of mechanical inventions] ▶.◀ and must contain a sufficient number of views to constitute a complete disclosure of the appearance of the article. Appropriate surface shading must be used to show the character or contour of the surfaces represented. ▶Solid black surface shading is not permitted except when used to represent color contrast.◀ Broken lines may be used to show visible environmental structure, but may not be used to show hidden planes and surfaces which cannot be seen through opaque materials. ▶Alternate positions of a design component, illustrated by full and broken lines in the same view are not permitted in a design drawing. Photographs and ink drawings must not be combined in one application. Photographs submitted in lieu of ink drawings in design patent applications must comply with § 1.84(b) and must not disclose environmental structure but must be limited to the design claimed. Color drawings and color photographs are not permitted in design patent applications.◀

9. Section 1.165 is proposed to be revised to read as follows:

§ 1.165 ▶Plant◀ Drawings.

(a) Plant patent drawings [are not mechanical drawings and]should be artistically and competently executed. [.Figure] ▶and must comply with the requirements of § 1.84. View◀ numbers and reference characters need not be employed unless required by the examiner. The drawing must disclose all the distinctive characteristics of the plant capable of visual representation.

(b) The drawing may be in color and when color is a distinguishing characteristic of the new variety, the drawing must be in color. Two copies of color drawings ▶or color photographs◀ must be submitted. [Color drawings may be made either in permanent water color or oil, or in lieu thereof may be photographs made by color photography or properly colored on sensitized paper. Permanently mounted color photographs are acceptable. The paper in any case must correspond in size, weight and quality to the paper required for other drawings. See § 1.84.]

SPECIAL BOXES FOR MAIL

Special PTO mail box numbers should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail is forwarded directly to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these boxes. If any documents other than the specified type identified for each box are addressed to that box, they will be delayed in reaching the appropriate area for which they are intended.

The following special boxes should be used only for their specified purpose. Address mail as follows:

Box _____
Commissioner of Patents and Trademarks

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particluar library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvience.

Plant Patents ..... 3,776 to 3,791

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS AMENDED, CORRECTED, ETC.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Any change to the registration will be indicated at the bottom of each entry under ELEMENTS AMENDED, CORRECTED OR RESTRICTED. With the exception of changes to the goods and services, additions to the registration will appear in asterisks and deletions of the registration will appear in brackets. Elements which are only changed will be listed with no punctuation. As to the goods/services statement, amendments to the goods/services will appear in asterisks and deletions will appear in brackets. In addition if any change to the goods/services occurs, the element "Goods/Services" will be listed under ELEMENTS AMENDED, CORRECTED OR RESTRICTED.

PATENT AND TRADEMARK OFFICE NOTICES

Patent Cooperation Treaty (PCT) Information

For information concerning PCT member countries, see the notice appearing in the *Official Gazette* at 1142 O.G. 66, on Sept. 29, 1992.

For use of the European Patent Office as an International Searching Authority for international applications filed in the United States Receiving Office, see the notice appearing in the *Official Gazette* at 1022 O.G. 52, on Sept. 28, 1982.

For use of the European Patent Office as an International Preliminary Examining Authority for international applications filed in the United States Receiving Office, see the notices appearing in the *Official Gazette* at 1080 O.G. 2, on July 7, 1987 and at 1091 O.G. 2, on June 7, 1988. There is no longer a limit on the number of such international applications accepted for international preliminary examination by the European Patent Office; see the notice appearing at 1116 O.G. 32, on July 17, 1990.

The search fee of the European Patent Office was changed on Oct. 1, 1992, due to changes both in the amount of the international search fee charged by the European Patent Office and in the exchange rate of the U.S. dollar to the German mark, and was announced in the *Official Gazette* at 1142 O.G. 20, on Sept. 8, 1992.

International fees were changed on January 1, 1992, due to a decision of the Assembly of the PCT Union taken during its meeting from 23 September 1991 to 02 October 1991, and were announced in the *Official Gazette* at 1133 O.G. 98, on Dec. 24, 1991.

Certain domestic PCT fees and charges for International Search and Preliminary Examination have been changed effective Oct. 1, 1992 and were announced in the *Official Gazette* at 1141 O.G. 68 on Aug. 25, 1992.

The current schedule of PCT fees (in U.S. dollars) is as follows:

Sept. 4, 1992

DOUGLAS B. COMER,
Acting Assistant Secretary and Acting Commissioner of Patents and Trademarks.

Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d) provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on application filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(h), as amended effective Dec. 16, 1991. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the patent.

Attention is drawn to the patents which were issued on October 10, 1989 for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,872,215 through 4,873,724
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on October 8, 1985 for which maintenance fees due at 7 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,545,079 through 4,546,490
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

For patents based on applications filed on or after December 12, 1980, but before August 27, 1982, patent owners must establish small entity status according to 37 CFR 1.27 if they have not done so and if they wish to pay the small entity.

The current amounts of the maintenance fees due at 3 years and six months and seven years and six months and eleven years and six months are set forth in 37 CFR 1.20(e)-(g), as amended Oct. 1, 1992, which are reproduced below:

37 CFR § 1.20 Post-issuance fees

(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after after Dec. 12, 1980 , in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§ 1.9f) $465.00
By other than a small entity $930.00

(f) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 in force beyond 8 years; the fee is due by seven years and six months after the original grant:

By a small entity (§ 1.9f) $935.00
By other than a small entity $1,870.00

(g) For maintaining an original or reissue patent except a design or plant patent, based on an application filed on or after Dec. 12, 1980, in force beyond 12 years; the fee is due by eleven years and six months after the original grant:

By a small entity(§ 1.9(f)) $1,410.00
By other than a small entity $2,820.00

The amounts of the surcharges for paying the maintenance fee during the grace period or after the expiration of the patent are set forth in 37 CFR 1.20(h), and (i), which are reproduced below:

(h) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months , seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980

By a small entity (§ 1.9f) $65.00
By other than a small entity $130.00

(i) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay is shown to the satisfaction of the Commissioner to have been unavoidable $620.00

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

RIN 0651-AA34
Miscellaneous Changes in Patent Practice

Agency: Patent and Trademark Office, Commerce
Action: Notice of Proposed Rulemaking
Summary: The Patent and Trademark Office (Office) is proposing to amend the rules of practice in patent cases to: expand the authority to sign a terminal disclaimer in a patent application or a disclaimer in a patent; allow an appellant appearing without counsel to file an appeal brief which is not in compliance with current 37 CFR 1.192(c); prohibit fee extensions of time to file: corrected drawings after allowance, reply briefs, and requests for oral hearing; clarify the requirements for claiming foreign priority; require that the specification of a design application describe the nature and intended use of the article being claimed; specify the manner in which additional fees are claimed; computed when applicants incorrectly claim small entity status; and correct errors in published regulations.
Dates: Written comments must be received on or before Nov. 5, 1992 to ensure consideration. A public hearing will not be conducted.
Address: Addresses written comments to the Office of the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231, marked to the attention of Abraham Hershkovitz. Correspondence may be sent by FAX to the attention of Abraham Hershkovitz at (703) 305-8825.
For Further Information Contact: Abraham Hershkovitz by telephone at (703) 305-9282 or by mail marked to his attention and addressed to Office of the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231.
Supplementary Information: The specific revisions proposed are discussed below:

(1) Copies of Papers. (§ 1.13)

The proposed change to § 1.13(a) clarifies that the paragraph pertains to non-certified copies and that copies of patents, trademark registrations and other papers belonging to the Office may be obtained, provided those papers are located in the Office, as opposed to being located in another agency.

The purpose of the proposed amendment to § 1.13(b) is to clarify that certified copies of papers belonging to the Office may be obtained upon payment of the fee for a certified copy.

(2) Patent applications preserved in secrecy. (§ 1.14)

Section 1.14(b) is proposed to be amended to correct a typographical error in that the second paragraph of this section was inadvertently deleted during one of the earlier revisions of this section. See 50 *FR* at 9378 (March 7, 1985). The absence of the second paragraph went unnoticed until recently. It is proposed that § 1.14(b) be amended by including the previous language of the second paragraph and by changing in the first paragraph the plural "applicants" to the singular "applicant".

(3) Effect on fees of failure to establish status, or change status, as a small entity. (§ 1.28)

Section 1.28(c) is proposed to be modified to reflect Office practice in calculating fee deficiencies when fees have been improperly paid as a small entity. The Office receives deficiency payments that differ based on the submitter's interpretation of § 1.28(c): some simply double the small entity fee in effect when the fee was originally paid in error, while others compute the difference between the fee already paid and the large entity fee level in effect at the time the deficiency is paid. The Office requires payments to be based on fee levels in effect at the time of the deficiency payment.

Since 1989, fee levels have been adjusted annually. In view of these adjustments, there are frequently situations where the fee amount has changed since it was originally erroneously paid. Calculation of deficiency amounts based on fee levels in effect at the time the deficiency is paid conforms with the general concept that fees to be paid are those in effect at the time of receipt of the fees. For example:

- where an application is filed under § 1.53(b) without the filing fees that could have been paid at the time of filing the application, any increase in the filing fees prior to payment of the filing fees requires that the filing fees be paid at the higher fee level;
- where an amendment is filed outside the shortened statutory period set for response and an extension of time under § 1.136(a) is requested prior to a fee increase, the extension fee is the fee required under the old fee schedule. On the other hand, if the extension of time is requested after a fee increase, the extension of time fee necessary is the fee in effect at the time of payment of the fee, which in this case is the fee under a new fee schedule, rather than the one in effect at the time of expiration of the shortened statutory period for response.

Section 1.28(c) is proposed to be modified to more clearly reflect this practice of basing deficiency payments on the fee level in effect at the time of deficiency payment.

(4) Claim for foreign priority. (§ 1.55)

The purpose of the proposed amendment to § 1.55(a) is to incorporate the limitations of 35 U.S.C. 119, which provides that the claim for priority and the appropriate copy of the foreign application must be filed before the patent is granted. Some applicants did not realize that submission of priority papers after payment of the issue fee required the filing of a petition to accept late submission of priority papers before issuance of the patent. After a patent is granted, applicants may still be able to establish priority benefits by filing a reissue application to correct the failure to perfect the claim for priority. *Brenner v. State of Israel, 400 F.2d 789, 158 USPQ 584 (D.C. Cir. 1968).* The proposed changes in § 1.55(a) list separately the instances when priority documents must be filed to receive the benefit of the filing date of a prior foreign application. Furthermore, § 1.55(a) is proposed to be amended to clarify when a verified English translation of a priority application not in the English language must be filed and to require a statement from the translator indicating that the translation of the priority document is accurate.

(5) Claiming benefit of earlier filing date and cross references to other applications. (§ 1.78)

Section 1.78(a) is proposed to be amended to correct a typographical error. In the reference to § 1.21(1), the numeral (1) appears instead of the letter (l).

(6) Corrections to drawings. (§ 1.85)

Section 1.85(c) is proposed to be amended to indicate that the time for filing formal and corrected drawings required in the Notice of Allowability may no longer be extended under § 1.136(a). The delays in filing corrected drawings resulting from fee extensions of time create an inefficient operation in that issuance of patents is delayed. Furthermore, applicants' ability to transmit proposed drawings (as opposed to formal drawings intended to comply with §§ 1.81 and 1.83 through 1.85) by facsimile transmission, coupled with the fact that examiners will notify applicants at an early stage of any objection to the drawings, will diminish the need for obtaining fee extensions of time. Under the proposed practice, examiners will advise applicants of the need to file formal or corrected drawings at the earliest opportunity, usually in the first Office action. Applicants may postpone the filing of formal or corrected drawings until after the application is allowed by the examiner. The deadline for filing the formal or corrected drawings will be set at the time of mailing the Notice of Allowability. An extension of time may be requested under § 1.136(b) before the period set for response expires, provided applicants are able to show sufficient cause why the extension should be granted. The Office will continue to set a one-month time limit under § 1.135(c) for drawing corrections where the formal and corrected drawings submitted constitute a *bona fide*, but not completely acceptable, response to an Office requirement.

(7) Prohibition of fee extensions of time to file: (1) corrected drawings in allowed applications, § 1.85(c); (2) reply briefs, § 1.193 (b); and (3) requests for oral hearing, § 1.194(b). (§ 1.136(a))

Section 1.136(a) is proposed to be amended by adding three additional situations in which applicants would no longer be able to use fee extensions under § 1.136(a). Rearrangement of § 1.136(a) is proposed so that referenced sections appear in numerical order. The new prohibitions would apply to situations where the request to extend the time is: (1) to permit filing of corrected drawings in allowed applications in accordance with § 1.85(c), (2) to permit filing reply briefs under § 1.193(b), and (3) to permit filing requests for oral hearing under § 1.194(b) before the Board of Patent Appeals and Interferences. Fee extensions of time to file reply briefs or requests for oral hearing delay final disposition of the appeal, and in the case of a corrected drawing requirement, final disposition of the application.

The Office has considered changing the practice to require payment of the fee and filing the request for an extension of time before the period set for response expires in the situations addressed in this proposed rulemaking, but did not adopt that approach because of the complexity that it would introduce into the system.

Corrected drawings can presently be filed up to six months from an examiner's requirement (with a maximum three-month extension of time). It is proposed that this period be reduced to three months. A three-month period is deemed ample time to file corrected drawings. Since the Office no longer releases drawings for purposes of correction, see § 1.85(b), applicants no longer need time to allow bonded drafting companies to pick up, check out, correct, and return corrected drawings. Applicants have been encouraged to keep the master copy of the drawings for use in making corrections or copies. If the master copy was not kept, one option available to applicants is to inspect the Office application file, make copies of any drawings in the file and make any desired corrections on these copies before submission to the Office. Situations which present a hardship to applicants may be accommodated by filing a petition under § 1.182 to request transfer of drawings from an original application to a new related application or by filing a petition under § 1.183 to request that the provisions of § 1.85(b) be waived so that the drawings may be loaned out for the purpose of making drawing corrections.

Applicants may submit corrected drawings at any time, except where a specific deadline is set by the examiner. Consideration of proposed drawing corrections may be expedited by having informal drawings transmitted by FAX to the examiner. Further, corrected or formal drawings will be required by the examiner at the earliest opportunity, usually in the first Office action. Applicants may postpone filing formal or corrected drawings until after the examiner sets a deadline for such filing, usually in the Notice of Allowability. However, in doing so, applicants assume the risk of not having sufficient time to make the required corrections to overcome objections to the drawings. Therefore, an applicant should file corrected drawings as soon as possible.

Extensions of time for sufficient cause under § 1.136(b) will continue to be available in situations where extensions of time under § 1.136(a) are not available. Extensions of time under § 1.136(b) will be granted only if the request is filed before expiration of the period set for response and only upon a showing of sufficient cause why corrected drawings cannot be timely filed. A request made on the basis of preoccupation with meeting other deadlines, or that the applicant lives overseas, or other similar reasons may not be granted. Similarly, extensions of time may be available under § 1.550(c) in reexamination proceedings.

Under current rules, applicants may file reply briefs or request oral hearings up to six months after an examiner's answer (with a maximum four-month extension of time under § 1.136(a)). Since the backlog of cases awaiting a decision by the Board of Patent Appeals and Interferences has been reduced, these extension requests have resulted in diminished efficiency by prolonging the pendency of applications. The periods specified in §§ 1.193(b) and 1.194(b) are considered sufficient to file a reply brief or request an oral hearing. Therefore, § 1.136(a) is proposed to be amended to prohibit fee extensions of time to file a reply brief or request an oral hearing.

(8) Title, description and claim, oath or declaration. (§ 1.153)

Section 1.153(a) is proposed to be amended to include a requirement that the specification of a design patent application include a clear description of the nature and intended use of the article. A description has not been required in most design applications because the title has been relied on to identify the article in which the design is embodied. However, the nature and intended use of many articles are not readily apparent from the title and the drawing. For example, a design application may be directed to a self-locking insert. Often it is not clear, even from the drawing, how the insert is used or where it should be classified for search and documentation purposes.

This problem is currently being addressed, in Patent Examining Group 290, by mailing a request for information to an applicant prior to the first Office action where the nature or intended use of the article is not evident. About 3,000 such requests were mailed in fiscal year 1991, covering more than 90% of the design applications that were screened for a useful description.

(9) Arrangement of specification. (§ 1.154)

Section 1.154 is proposed to be amended to be consistent with the proposed changes to § 1.153 by including a reference to the requirement for a description of the nature and intended use of the article claimed.

(10) Appeal to the Board of Patent Appeals and Interferences. (§ 1.191)

Section 1.191(d) is proposed to be amended to be consistent with the proposed changes to § 1.136.

(11) Appellant's brief. (§ 1.192)

Sections 1.192(a) and (d) are proposed to be amended by moving the last sentence of current § 1.192(d) to § 1.192(a) to highlight that the Board may refuse consideration of any arguments or authorities not included in the brief.

Section 1.192(c) is proposed to be amended to provide that in a case of a pro se appellant, an appellant appearing without counsel, a brief may be acceptable even though it does not comply with all the requirements of current paragraph (c). An appellant appearing without counsel means there is no attorney or agent of record in the application, the brief was not prepared by a registered practitioner, and the brief was not signed by a registered practitioner. It is proposed to amend paragraph (c) to allow a pro se appellant's brief to be accepted provided it is at least in substantial compliance with the requirements of subparagraphs (1), (2), (6) and (7) of current paragraph (c). If a pro se appellant's brief is accepted, it will be presumed that a rejected group of claims stand or fall together unless an argument is included in the brief that presents reasons as to why appellant considers the rejected group of claims to be separately patentable.

(12) Examiner's answer. (§ 1.193)

Section 1.193(b) is proposed to be amended to clarify the consequence of failure to file a reply brief in response to a new ground of rejection made in an examiner's answer. The failure to file a reply brief will result in dismissal of the appeal as to the claims made subject to the new ground of rejection. If the dismissal of the appeal applies to all claims in the application, the application will be abandoned. Additionally, this section is proposed to be amended to be consistent with the proposed changes to § 1.136.

(13) Oral hearing. (§ 1.194)

Section 1.194(b) is proposed to be amended to be consistent with the proposed changes to § 1.136. Under the current rule, if new grounds of rejection are first made in an examiner's answer, two months are permitted for filing a reply brief and, if a reply brief is filed, an applicant is permitted three months after the date of filing a reply brief to file a request for an oral hearing. In order to provide a more consistent approach vis-a-vis time periods for filing reply briefs and requests for oral hearing and to permit

earlier decisions of issues on appeal, it is proposed that the three-month period specified in § 1.194(b) for filing a request for oral hearing be changed to the later of (1) one month from the date of an examiner's answer, or (2) the date of filing a timely reply brief. This period should be sufficient to request an oral hearing. It is further proposed that § 1.194(b) be revised to correct the spelling of the word "reply".

(14) Decision by the Board of Patent Appeals and Interferences. (1.196)

Section 1.196(f) is proposed to be amended to refer to § 1.550(c) for extensions of time in reexamination proceedings.

(15) Action following decision (§ 1.197)

Section 1.197(b) is proposed to be amended to refer to § 1.550(c) for extensions of time in reexamination proceedings.

(16) Amendments after allowance. (§ 1.312)

The purpose of the proposed amendment to § 1.312(b) is to clarify that the fee required for a petition under this section is that specified in § 1.17(i) (1).

(17) Persons other than the owner permitted to sign a disclaimer as specified in § 1.321.

Section 253 of Title 35 of the United States Codes states that disclaimer of any complete claim in a patent may be made by the patentee. Furthermore, any terminal part of the patent granted or to be granted may be disclaimed by the patentee, or applicant, respectively. It is the current policy of the Office to accept disclaimers only if signed by the owner of record. This policy is too restrictive in that it precludes authorized patent practitioners from signing disclaimers. Furthermore, it is often difficult to ascertain whether the person signing is in fact an officer of the entity owning rights to the application.

The rules allow authorized persons other than the applicant to sign most papers filed in an application. See § 1.33(a)(2)-(5). The requirement that a disclaimer be signed by the owner of record of an application or patent is a departure from the general practice of permitting a registered attorney or agent to sign a wide variety of papers filed in applications and patents, such as amendments, a notice of appeal to the Board of Patent Appeals and Interferences or the Court of Appeals for the Federal Circuit, and amendments and papers in reexamination proceedings.

It is proposed that persons permitted to sign a disclaimer in a patent be the patentee, or an attorney or agent of record, whereas, persons permitted to sign a disclaimer in a patent application be any person specified in § 1.33(a)(1)-(4). The person signing the disclaimer must state the present extent of the disclaiming party's (i.e., patentee's or assignee's) interest in the patent or patent application. Naturally, a disclaimer signed on behalf of a party who no longer has an ownership interest in the patent or patent application cannot be accepted since 35 U.S.C. 253 requires a disclaimer to be signed by the owner of the whole or any sectional interest in the patent or patent application.

If the patent or patent application is assigned to an organization, such as a corporation, partnership, university, Government agency, or similar entity, the disclaimer may be signed by an officer of the organization empowered to act on behalf of the organization. If the person signing is not an officer of the organization, a statement will be required indicating that the person signing was authorized to sign on behalf of the organization. The statement must be a verified statement if made by a person not registered to practice before the Office. Verification may be made by way of a declaration in accordance with § 1.68.

Paragraph (a) of this section is further proposed to be amended to deal only with disclaimers filed in patents. The Office does not record a disclaimer of part of a claim or claims. Hence, paragraph (a) of this section is proposed to be amended to indicate that a disclaimer which does not disclaim a complete claim or claims will be refused recordation, rather than "may be refused recordation" as the rule currently reads.

Paragraph (b) of this section, as proposed, deals only with terminal disclaimers filed in a patent application. Section 1.321(b) is also proposed to be amended to include a reminder that the disclaimer is binding upon the grantee and its successors or assigns.

Proposed new paragraph (c) of this section would incorporate the language of current paragraph (b) of this section dealing with terminal disclaimers to obviate a double patenting rejection and also include reference to terminal disclaimers filed in reexamination proceedings for the same purpose.

(18) Publication of notice of proposed amendments. (§ 1.352(a))

The purpose of the amendment to § 1.352(a) is to delete the language "and in other cases whenever practicable" so that the Office may engage in expedited rulemaking when publication of notice of proposed amendments to regulations is not required by law.

(19) Time for Payment of maintenance fees. (§ 1.362)

The purpose of the amendment to § 1.362 is to clarify applicability and due dates for payment of maintenance fees. Paragraph (c)(3) of § 1.362 indicates that the actual filing date of a continuing application determines applicability of maintenance fees, while paragraph (c)(4) indicates that in the case of a reissue application, the filing date of the original non-reissue application determines applicability of maintenance fees. Some patentees and patent practitioners expressed confusion with respect to applicability of maintenance fees in the case of a continuing reissue application of a reissue application. Uncertainty has been expressed as to whether this type of application would fall within paragraph (c)(3) or (c)(4). The amendment to § 1.362(c)(4) is proposed in order to clarify that a continuing application of a reissue application is subject to maintenance fees only if the original (non-reissue) patent would be subject to such fees. These amendments also remove any confusion that may have existed with regard to the due dates for payment of maintenance fees in reissued patents by adding § 1.362(h) to specify that the due dates for payment of maintenance fees in such reissued patents are computed from the date of grant of the original (non-reissue) patent.

In a notice published on December 13, 1991, in the Federal Register at *56 FR 65142*, the Office announced an amendment to its rules of practice. Included in that notice, was a change to paragraph (e) of § 1.362 which was not intended. See *56 FR* at *65146*. It is proposed that the portion of paragraph (e) which was not intended to be amended, be changed back to its earlier version.

(20) International preliminary examination fees. (§ 1.482)

Section 1.482(a) is proposed to be amended to correct a typographical error in the spelling of the word "under".

(21) Request by applicant for interference with patent. (§ 1.1607)

Section 1.607(a)(5)(i) is proposed to be amended to correct a typographical error in the spelling of the word "count".

(22) Export of technical data. (§ 5.19)

Section 5.19(a) is proposed to be amended to correct the citations set forth in the rule and to update the name of the office in the Department of Commerce that established 15 CFR 770.10(j).

(23) Sharing legal fees. (§ 10.48)

Section 10.48(b) is proposed to be amended to correct a typographical error in the spelling of the word "deceased".

OTHER CONSIDERATIONS

The proposed rule changes are in conformity with the requirements of the Regulatory Flexibility Act (5 U.S.C. *601 et seq.*), Executive Orders 12291 and 12612 and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that these proposed rule changes will not have a

significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)). The principal impact of these proposed changes is to permit persons other than the assignee of a patent application or patent to sign certain disclaimers, incorporate existing Office policy into the regulations and eliminate the opportunity to pay for extensions of time in certain situations where the extensions substantially interfere with the efficient operation of the Office.

The Office has determined that this proposed rule change is not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers; individuals; industries; Federal, state or local government agencies; or geographic regions. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Office has also determined that this notice has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

These proposed rule changes, except as noted below, contain a collection of information requirements subject to the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*, which has previously been approved by the Office of Management and Budget under Control No. 0651-0011. Proposed § 1.153 would require a design specification to present a clear description of the nature and use of the article. Public reporting burden for this collection of information is estimated to average two (2) minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Abraham Hershkovitz by mail marked to his attention and addressed to Office of the Assistant Commissioner for Patents, Box DAC, Washington, D.C. 20231 and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503. For the reasons set out in the preamble and pursuant to the authority granted to the Commissioner of Patents and Trademarks by 35 U.S.C. 6, it is proposed to amend 37 CFR Parts 1, 5 and 10 as follows, wherein deletions are indicated by brackets ([ ]) and additions by arrows (▶◀):

Part - Rules of Practice in Patent Cases

1. The authority citation for 37 CFR Part 1 would continue to read as follows:

Authority: 35 U.S.C. 6, unless otherwise noted.

2. Section 1.13 is proposed to be revised to read as follows:

§ 1.13 Copies and certified copies.

(a) [Copies] ▶Non-certified copies◀ of patents and trademark registrations and of any records, books, papers, or drawings belonging to ▶and located in◀ the Patent and Trademark Office and open to the public, will be furnished by the Patent and Trademark Office to any person, and copies of other records or papers will be furnished to persons entitled thereto, upon payment of the fee therefor.

(b) [Such] ▶Certified◀ copies will be authenticated by the seal of the Patent and Trademark Office and certified by the Commissioner, or in his name attested by an officer of the Patent and Trademark Office authorized by the Commissioner, upon payment of the fee for the ▶certified copy◀ [authentication certificate in addition to the fee for the copies].

3. Section 1.14, paragraph (b) is proposed to be revised as follows:

§ 1.14 Patent applications preserved in secrecy.

5. Section 1.55, paragraph (a) is proposed to be revised to read as follows:

§ 1.55 Claim for foreign priority.

(a) An applicant may claim the benefit of the filing date of a prior foreign application under the conditions specified in 35 U.S.C. 119 and 172. The claim to priority need be in no special form and may be made by the attorney or agent if the foreign application is referred to in the oath or declaration as required by § 1.63. The claim for priority and the certified copy of the foreign application specified in the second paragraph of 35 U.S.C. 119 must be filed ▶:

(1)◀ in the case of an interference (§ 1.630);

▶(2)◀ when necessary to overcome the date of a reference relied upon by the examiner; or

▶(3)◀ when specifically required by the examiner; and

▶(4)◀ in all other cases▶.◀ [they must be filed] not later than the date the issue fee is paid.

▶If the claim for priority or the certified copy of the foreign application is filed after the date the issue fee is paid, it must be filed before the patent is granted and must be accompanied by a petition requesting entry of late priority papers and the fee set forth in § 1.17(i)(1).◀ If the papers filed are not in the English language, a translation need not be filed except in the [three particular instances specified in the preceding sentence] ▶case of an interference; or when necessary to overcome the date of a reference relied upon by the examiner; or when specifically required by the examiner◀, in which event [a sworn] ▶an English◀ translation [or a translation certified as accurate by a sworn or official translator] must be filed ▶together with a statement that the translation of the priority papers is accurate. The statement must be a verified statement if made by a person not registered to practice before the Patent and Trademark Office.◀ [If the priority papers are submitted after the date the issue fee is paid, they must be accompanied by a petition requesting their entry and the fee set forth in § 1.17(i)(1).]

6. Section 1.78, paragraph (a) is proposed to be revised to read as follows:

§ 1.78 Claiming benefit of earlier filing date and cross references to other applications.

(a) An application may claim an invention disclosed in a prior filed copending national application or international application designating the United States of America. In order for an application to claim the benefit of a prior filed copending national application, the prior application must name as an inventor at least one inventor named in the later filed application and disclose the named inventor's invention claimed in at least one claim of the later filed application in the manner provided by the first paragraph of 35 U.S.C. 112. In addition, the prior application must be

(1) complete as set forth in § 1.51 [,] ▶;◀ or

(2) entitled to a filing date as set forth in § 1.53(b) and include the basic filing fee set forth in § 1.16; or

(3) entitled to a filing date as set forth in § 1.53(b) and have paid therein the processing and retention fee set forth in § 1.21 [(1)] ▶(1)◀ within the time period set forth in § 1.53(d). Any application claiming the benefit of a prior filed copending national or international application must contain or be amended to contain in the first sentence of the specification following the title a reference to such prior application, identifying it by serial number and filing date or international application number and international filing date and indicating the relationship of the applications. Cross-references to other related applications may be made when appropriate. (See § 1.14(b)).

7. Section 1.85, paragraph (c) is proposed to be revised to read as follows:

§ 1.85 Corrections to drawings.

*****

(c) When corrected drawings are required to be submitted at the time of allowance, the applicant is required to submit acceptable drawings within three months from the mailing of [the] ▶a◀ "Notice of Allowability." [Within that three-month period, two weeks should be allowed for review of the drawings by the Drafting Branch.] If the Office finds that correction is necessary, the applicant must submit a new corrected drawing to the Office within the original three-month period to avoid ▶abandonment of the application◀ [the necessity of obtaining an extension of time and paying the extension fee.] Therefore, the applicant should file corrected drawings as soon as possible following the receipt of the ▶"◀Notice of Allowability.▶"◀ The provisions with respect to obtaining an extension of time ▶under § 1.136(b) relate◀ [relates] only to the late filing of corrected drawings. The time limit for payment of the issue fee is a fixed three-month period which cannot be extended as set forth in 35 U.S.C. 151.

8. Section 1.136, paragraph (a) is proposed to be revised to read as follows:

§ 1.136 Filing of timely responses with petition and fee for extension of time and extensions of time for cause.

(a) If an applicant is required to respond within a nonstatutory or shortened statutory time period, applicant may respond up to four months after the time period set if a petition for an extension of time and the fee set in § 1.17 are filed prior to or with the response, unless

(1) applicant is notified otherwise in an Office action,

(2) ▶the response is a submission of corrected drawings required in the "Notice of Allowability" (see § 1.85(c)),

(3) the response is a reply brief submitted pursuant to § 1.193(b),

(4) the response is a request for an oral hearing submitted pursuant to § 1.194(b),

(5) the response is to a decision by the Board of Patent Appeals and Interferences pursuant to §§ 1.196, 1.197 or 1.304, or

(6)◀ the application is involved in an interference declared pursuant to § 1.611 [or (3) the response is to a decision by the Board of Patent Appeals and Interferences pursuant to §§ 1.196, 1.197 or 1.304].

The date on which the response, the petition, and the fee have been filed is the date of the response and also the date for purposes of determining the period of extension and the corresponding amount of the fee. The expiration of the time period is determined by the amount of the fee paid. In no case may an applicant respond later than the maximum time period set by statute, or be granted an extension of time under paragraph (b) of this section when the provisions of this paragraph are available. See § 1.136(b) ▶for extensions of time to file corrected drawings under § 1.85(c) and◀ for extensions of time relating to proceedings pursuant to § ▶§ 1.193(b), 1.194,◀ 1.196 or [§] 1.197 [,] ▶. See◀ § 1.304 for extension of time to appeal to the U.S. Court of Appeals for the Federal Circuit or to commence a civil action [,]▶. See◀ § 1.645 for extension of time in interference proceedings and § 1.550(c) for extension of time in reexamination proceedings.

9. Section 1.153, paragraph (a) is proposed to be revised to read as follows:

§ 1.153 Title, description and claim, oath or declaration.

(a) The title of the design must designate the particular article. [No description, other than a reference to the drawing, is ordinarily required.] ▶The specification must present a clear description of the nature and intended use of the article.◀ The claim shall be in formal terms to the ornamental design for the article (specifying name) as shown, or as shown and described. More than one claim is neither required nor permitted.

*****

10. Section 1.154, paragraph (c) is proposed to be revised to read as follows:

§ 1.154 Arrangement of specification.

*****

(c) Description, [if any] ▶including the nature and intended use of the article (see § 1.153(a))◀.

*****

11. Section 1.191, paragraph (d) is proposed to be revised to read as follows:

§ 1.191 Appeal to Board of Patent Appeals and Interferences.

*****

(d) ▶The time periods set forth in §§ 1.191 and 1.192 are subject to the provisions of § 1.136 for patent applications and § 1.550(c) for reexamination proceedings.◀ The time periods set forth in §§ [1.191 through] 1.193 ▶, 1.194, 1.196 and 1.197◀ are subject to the provisions of § 1.136 ▶(b)◀ for patent applications or § 1.550(c) for reexamination proceedings. See § 1.304(a) for extensions of time for filing a notice of appeal to the U.S. Court of Appeals for the Federal Circuit or for commencing a civil action.

*****

12. Section 1.192, paragraphs (a), (c) and (d) are proposed to be revised to read as follows:

§ 1.192 Appellant's brief.

(a) The appellant shall, within 2 months from the date of the notice of appeal under § 1.191 in an application, reissue application, or patent under reexamination, or within the time allowed for response to the action appealed from, if such time is later, file a brief in triplicate. The brief must be accompanied by the requisite fee set forth in § 1.17(f) and must set forth the authorities and arguments on which the appellant will rely to maintain the appeal. ▶Any arguments or authorities not included in the brief may be refused consideration by the Board of Patent Appeals and Interferences.◀

*****

(c) The brief shall contain the following items under appropriate headings and in the order here indicated ▶unless the brief is filed by an appellant appearing without counsel wherein the brief will be accepted as complying with this paragraph provided it is at least in substantial compliance with the requirements of paragraph c(1), (2), (6) and (7)◀:

(1) *Status of claims.* A statement of the status of all the claims, pending or cancelled, and identifying the claims appealed.

(2) *Status of amendments.* A statement of the status of any amendment filed subsequent to final rejection.

(3) *Summary of invention.* A concise explanation of the invention defined in the claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters.

(4) *Issues.* A concise statement of the issues presented for review.

(5) *Grouping of claims.* For each ground of rejection which appellant contests and which applies to more than one claim, it will be presumed that the rejected claims stand or fall together unless a statement is included that the rejected claims do not stand or fall together, and in the appropriate part or parts of the argument under paragraph (c)(6) of this section appellant presents reasons as to why appellant considers the rejected claims to be separately patentable.

(6) *Argument.* The contentions of the appellant with respect to each of the issues presented for review in paragraph (c)(4) of this section, and the basis therefor, with citations of the authorities, statutes, and parts of the record relied on. Each issue should be treated under a separate heading.

(i) For each rejection under 35 U.S.C. 112, first paragraph, the argument shall specify the errors in the rejection and how the first paragraph of 35 U.S.C. 112 is complied with, including, as appropriate, how the specification and drawings, if any,

(A) Describe the subject matter defined by each of the rejected claims,

(B) Enable any person skilled in the art to make and use the subject matter defined by each of the rejected claims, and

(C) Set forth the best mode contemplated by the inventor of carrying out his or her invention.

(ii) For each rejection under 35 U.S.C. 112, second paragraph, the argument shall specify the errors in the rejection and how the claims particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(iii) For each rejection under 35 U.S.C. 102, the argument shall specify the errors in the rejection and why the rejected claims are patentable under 35 U.S.C. 102, including any specific limitations in the rejected claims which are not described in the prior art relied upon in the rejection.

(iv) For each rejection under 35 U.S.C. 103, the argument shall specify the errors in the rejection and, if appropriate, the specific limitations in the rejected claims which are not described in the prior art relied on in the rejection, and shall explain how such limitations render the claimed subject matter unobvious over the prior art. If the rejection is based upon a combination of references, the argument shall explain why the references, taken as a whole, do not suggest the claimed subject matter, and shall include, as may be appropriate, an explanation of why features disclosed in one reference may not properly be combined with features disclosed in another reference. A general argument that all the limitations are not described in a single reference does not satisfy the requirements of this paragraph.

(v) For any rejection other than those referred to in paragraphs (c)(6)(i) to (iv) of this section, the argument shall specify the errors in the rejection and the specific limitations in the rejected claims, if appropriate, or other reasons, which cause the rejection to be in error.

(7) *Appendix.* An appendix containing a copy of the claims involved in the appeal.

(d) If a brief is filed which does not comply with [all] the requirements of paragraph (c) of this section, the appellant will be notified of the reasons for non-compliance and provided with a period of one month within which to file an amended brief. If the appellant does not file an amended brief during the one-month period, or files an amended brief which does not overcome all the reasons for non-compliance stated in the notification, the appeal will be dismissed. [Any arguments or authorities not included in the brief may be refused consideration by the Board of Patent Appeals and Interferences.]

13. Section 1.193, paragraph (b) is proposed to be revised to read as follows:

§ 1.293 Examiner's answer.

*****

(b) The appellant may file a reply brief directed only to such new points of argument as may be raised in the examiner's answer, within one month from the date of such answer. The new points of argument shall be specifically identified in the reply brief. If the examiner determines that the reply brief is not directed only to new points of argument raised in the examiner's answer, the examiner may refuse entry of the reply brief and will so notify the appellant. If the examiner's answer states a new ground of rejection ▶,◀ appellant [may] ▶must◀ file a reply thereto within two months from the date of such answer ▶to avoid dismissal of the appeal as to the claims subjected to the new ground of rejection◀; such reply may be accompanied by any amendment or material appropriate to the new ground. ▶See § 1.136(b) for extensions of time for filing a reply brief in a patent application and § 1.550(c) for extensions of time in a reexamination proceeding.◀

*****

14. Section 1.194, paragraph (b) is proposed to be revised to read as follows:

§ 1.194 Oral hearing.

*****

(b) If appellant desires an oral hearing, appellant must file a written request for such hearing accompanied by the fee set forth in § 1.17(g) within one month after the date of the examiner's answer. If the examiner's answer states a new ground of rejection and if appellant files a reply as provided for by § 1.193(b), then the written request must be made [within three months after the

date of the filing of the replay] ▶at the time of filing the reply provided for by § 1.193(b), or within one month from the date of an examiner's answer◀. If appellant requests an oral hearing and submits therewith the fee set forth in § 1.17(g), an oral argument may be presented by, or on behalf of, the primary examiner if considered desirable by either the primary examiner or the Board. ▶See § 1.136(b) for extensions of time for requesting an oral hearing in a patent application and § 1.550(c) for extensions of time in a reexamination proceeding.◀

*****

15. Section 1.196, paragraph (f) is proposed to be revised to read as follows:

§ 1.196 Decision by the Board of Patent Appeals and Interferences

(f) See § 1.136(b) for extensions of time to take action under this section ▶in a patent application and § 1.550(c) for extensions of time in a reexamination proceeding◀.

16. Section 1.197, paragraph (b) is proposed to be revised to read as follows:

§ 1.197 Action following decision.

*****

(b) A single request for reconsideration or modification of the decision may be made if filed within one month from the date of the original decision, unless the original decision is so modified by the decision on reconsideration as to become, in effect, a new decision, and the Board of Patent Appeals and Interferences so states. The request for reconsideration shall state with particularity the points believed to have been misapprehended or overlooked in rendering the decision and also state all other grounds upon which reconsideration is sought. See [37 CFR] ▶§◀ 1.136(b) for extensions of time for seeking reconsideration ▶in a patent application and § 1.550(c) for extensions of time in a reexamination proceeding◀.

17. Section 1.312, paragraph (b) is proposed to be revised to read as follows:

§ 1.312 Amendements after allowance.

*****

(b) Any amendment pursuant to paragraph (a) of this section filed after the date the issue fee is paid must be accompanied by a petition including the fee set forth in § 1.17(i) ▶(1)◀ and a showing of good and sufficient reasons why the amendment is necessary and was not earlier presented.

18. Section 1.321 is proposed to be revised to read as follows:

§ 1.321 Statutory disclaimer.

(a) ▶A patentee owning the whole or any sectional interest in a patent may disclaim any complete claim or claims in a patent. Such disclaimer is binding upon the grantee and its successors or assigns. The disclaimer, to be recorded in the Patent and Trademark Office, must:

(1) be signed by the patentee, or an attorney or agent of record;

(2) identify the patent and complete claim or claims being disclaimed;

(3) state the present extent of patentee's ownership interest in the patent; and

(4) be accompanied by the fee set forth in § 1.20(d).◀ [A disclaimer under 35 U.S.C. 253 must be accompanied by the fee set forth in § 1.20(d) and identify the patent and the claim or claims which are disclaimed, and be signed by the person making the disclaimer, who shall state therein the extent of his or her interest in the patent.] A disclaimer which is not a disclaimer of a complete claim or claims [may] ▶will◀ be refused recordation. A notice of the disclaimer is published in the *Official Gazette* and attached to the printed copies of the specification. In like manner any patentee [or applicant] may disclaim or dedicate to the public the entire term, or any terminal part of the term, of the patent granted [or to be granted].

(b) ▶An applicant or assignee may disclaim or dedicate to the public the entire term, or any terminal part of the term, of a patent to be granted. Such terminal disclaimer is binding upon the grantee and its successors or assigns. The terminal disclaimer, to be recorded in the Patent and Trademark Office, must:

(1) be signed as provided in § 1.33(a)(1)-(4);

(2) specify the portion of the term of the patent being disclaimed;

(3) state the present extent of applicant's or assignee's ownership interest in the patent to be granted; and

(4) be accompanied by the fee set forth in § 1.20(d).

(c)◀ A terminal disclaimer, when filed [in an application] to obviate a double patenting rejection ▶in a patent application or in a reexamination proceeding◀, must [be accompanied by the fee set forth in § 1.20(d) and] ▶comply with the provisions of paragraph (b) of this section and also◀ include a provision that any patent granted on that application ▶or any patent subject to that reexamination proceeding◀ shall be enforceable only for and during such period that said patent is commonly owned with the application or patent which formed the basis for the rejection.

19. Section 1.352 is proposed to be amended by revising paragraph (a) to read as follows:

§ 1.352 Publication of notice of proposed amendments.

(a) Whenever required by law, [and in other cases whenever practicable,] notice of proposed amendments to the regulations in this part will be published in the *Official Gazette* and in the *FEDERAL REGISTER*. If not published with the notice, copies of the text will be furnished to any person requesting the same. All comments, suggestions, and briefs received within a time specified in the notice will be considered before adoption of the proposed amendments which may be modified in the light thereof.

SPECIAL BOXES FOR MAIL

Special PTO mail box numbers should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail is forwarded directly to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these boxes. If any documents other than the specified type identified for each box are addressed to that box, they will be delayed in reaching the appropriate area for which they are intended.

The following special boxes should be used only for their specified purpose. Address mail as follows:

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PDTLs have both the patent and trademark sections of the *Official Gazette of the U. S. Patent and Trademark Office*. The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that prelminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particluar library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvience.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
